This report states the activities conducted in the month of August 2019 within the organization according to formal education program (Shima Campus) and other related programs.
GOFA AUGUST IMPLEMENTATION AGUST REPORT 2019

ACTIVITIES IMPLEMENTED IN THE MONTH OF AUGUST 2019

UPDATES:

We closed term II at Graben Junior Academy – Shima Campus on 09th July/2019 with 200 kids from Nursery section to Primary seven, remember our target this year was to adopt 200 vulnerable children have access to free education services. So, term III is starting next week on 2nd/09/2019 at Shima Campus.

ON GOING PROGRAMS

1. Formal education program aims at supporting vulnerable children in our community to access free education services from nursery to primary level. We decided to establish a community school we named Graben Junior Academy in the year 2015 and right now we are taking care of 200 pupils benefiting in this program and it has been implemented and still going on well.

2. Income generating activity program aims at training early school leavers aged 13-30 years most especially female youths in entrepreneurship skills and employability skills to either start small businesses or find employment opportunity and we are targeting 500 youths this year 2019. We are done with half year when 300 have benefited in this program and now this month 400 youths are benefiting in this ongoing program.

3. Vocational program is also designed to train early school leavers with hands on skills both long term and short term courses but still putting a female youth aged 13-30 years on forefront and we planned 25 youths to benefit in this program this year and we have reached 25 youths who are benefiting in this ongoing program in the line of computer skills training.

4. Professional/career development program aims at making employers and employees improve and add on their careers to yield good results in their institutions/places of work. This year we planned for 100 professionals to benefit in this program and we completed quarter one with 25 participants and in second quarter we recruited
more 25 making it 50, now this month we recruited and trained more 50 beneficiaries to this program. These are both employees and employers, we planned for 100 people to benefit in this ongoing program this year 2019 and we have reached our target.

5. The adult training/education program aims at training adults from 35-75 years in financial literacy, retirement age, preparing wills, writing agreements and keeping confidential. We planned for 100 beneficiaries to gain in this program and it has been implemented and still going on. We recruited more 50 participants in quarter two on top of the 25 we had recruited in quarter one. This month we recruited 25 participants (adults) attending financial literacy training and preparing for retirement age or life after work. We planned for 100 beneficiaries this year under this program and now we reached the target of 100 participants.

Other programs in pipeline/not yet implemented include:

6. Plant a shade and save a life program is environmental based program aims at planting 10000 trees both indigenous and exotic species, trees that bear fruits and not in public places like school, health centers, road sides, government local headquarters and others. These trees are to increase on the fresh air, beautification of places, habitat to birds and animals and others. We planned to have 1000 people to benefit in this program and it has been not yet implemented.

7. Grow to harvest program is an agricultural based program aims at training families, villages and communities with new modern agricultural techniques and supporting them to go commercial farming. This program is to increase on food security, nutrition and day to day living standards of our people in the community. We are targeting 200 local farmers and it has been not yet been implemented.

Challenges:

- Constructing school structures
- Constructing school latrine
- Pupil’s and staff welfare
- Staff salary
- Water and power
- Pupil’s and staff accommodation

Solutions:

- We believe that if we managed to secure the first school land, the extension land with the help of our patron, so together with you we are to overcome all that in just shortest time possible. Challenges are signs that shows that we are moving from good to great.
