This report is clearly elaborating different activities conducted by GOFA in the six months of the second quarter 2019. Find time to cross check our 2019 work plan with this quarter two report and all feedbacks will help us to improve our implementation hence resulting into quality impact.

**GOFA’s 2019 PROPOSED BUDGET VERSES QUARTER II EXPENCES**

**QUARTER II BENEFICIARIES VERSES GOFA ‘s ANNUAL 2019 BENEFICIARIES**
In January 2019, we planned for the year and goals were set to be accomplished through respective implementation activities in different programs.

Still in January we conducted training to 182 early school leavers in Mubende Youth Conference Leadership and Entrepreneurship Training.

In February, activities for different programs started to be implemented according to goals and work plan.

Vocational training program started, computer training sessions are going on and youths are done with how to set up a computer, switching it on and off, Microsoft word and Microsoft excel.

In March 2019 the number of beneficiaries increased in all programs compared to January and February reports even to the extent that the resources are still inadequate.

In the month of April, we conducted different activities according to respective programs and due to the need of our programs, the number of beneficiaries also increased compared to that of the first quarter.

We began the term II at Graben Junior Academy – Shima Campus on 20th/May/2019 with 180 kids from Nursery section to Primary seven, remember our target this year is to adopt 200 vulnerable children have access to free education services.
Formal Education Program;

We closed term I with 170 vulnerable children at our school and we began the second term with 180 children, in this midyear report we are proud to say that we have reached our goal of 200 pupils under this program.

Income generating activity program;

We have reached 300 participants benefiting in this program after training them to start small businesses as an individual or as a group and some get employment. This means that we are left with 200 more beneficiaries to reach our target of 500 beneficiaries planned this year.

Vocational program;

We have already reached our target in quarter one, we planned for 25 early school leavers and we managed to mobilize and encouraging them attend the computer trainings using one piece of a computer.

Professional development program;

We completed quarter one with 25 participants but in this second quarter we have recruited more 25 making it 50 now benefiting in this program. These are both employees and employers, we planned for 100 people to benefit in this program.

Adult training program;

We have recruited more 50 participants on top of the 25 we had recruited in quarter one. This means that we have 75 participants (adults) attending financial literacy training and preparing for retirement age or life after work. We planned for 100 beneficiaries this year under this program.

Planning meetings are going on at GOFA trying to strategizing on the two new designed programs named Plant a shade to save a life program (PLASSLIFE) and Grow to harvest program(GTH) and the implementations are soon starting this June 2019. We planned for 10000 trees to be planted in public places under PLASSLIFE program and this is to benefit 1000 people directly and 200 local farmers to benefit first in grow to harvest program.

Challenges:

- Expansion of school land
- Constructing school structures
- Constructing school latrine
- Pupil’s and staff welfare
- Staff salary
- Water and power
✓ Pupil’s and staff accommodation
✓ Proper fundraising and proposal winning

Solutions:

➢ We believe that if we managed to secure the school land, together with you we are to overcome all that in just shortest time possible. Challenges are signs that shows our progress.

MIDYEAR PICTORIALS;

Let's build this view for generations;

Together we can change the face of these structures below;
