300 and benefited in this program and now we reached our target of 500 youths benefiting in this ongoing program.

3. Vocational program is also designed to train early school leavers with hands on skills both long term and short term courses but still putting a female youth aged 13-30 years on forefront and we planned 25 youths to benefit in this program this year and we have reached 25 youths who are benefiting in this ongoing program in the line of computer skills training.

4. Professional/career development program aims at making employers and employees improve and add on their careers to yield good results in their institutions/places of work. This year we planned for 100 professionals to benefit in this program and we completed quarter one with 25 participants and in second quarter we recruited more 25 making it 50, in quarter III we have recruited and trained more 50 beneficiaries to this program. These are both employees and employers, we planned for 100 people to benefit in this ongoing program this year 2019 and we have reached our target.

5. The adult training/education program aims at training adults from 35-75 years and beyond in financial literacy, retirement age, preparing wills, writing agreements and keeping confidential. We planned for 100 beneficiaries to gain in this program and it has been implemented and still going on. We recruited more 50 participants in quarter two on top of the 25 we had recruited in quarter one. This quarter III we recruited 25 participants (adults) attending financial literacy training and preparing for retirement age or life after work. We planned for 100 beneficiaries this year under this program and now we reached the target of 100 participants.

Other programs in pipeline/not yet implemented includes.

6. Plant a shade and save a life program is environmental based program aims at planting 10000 trees both indigenous and exotic species, trees that bear fruits and not in public places like school, health centers, road sides, government local headquarters and others. These trees are to increase on the fresh air, beautification of places, habitat to birds and animals and others. We planned to have 1000 people to benefit in this program and it has been not yet being implemented.

7. Grow to harvest program is an agricultural based program aims at training families, villages and communities with new modern agricultural techniques and supporting them to go commercial farming. This program is to increase on food security, nutrition and day to day living standards of our people in the community. We are targeting 200 local farmers and it has been not yet being implemented.
